

## Voyageur, Georgian Bay and Mariner Sea Kayaking Equipment List

The following is a list of all clothing and personal equipment needed to have a comfortable wilderness experience. It is designed to help you prepare and give you an idea of how each piece of gear will be used. Because weather is unpredictable, there is no guarantee that all of the equipment will be used. We have carefully prepared this list and your time on the water is no time to take chances.

This list is meant to be followed closely. Bringing less may lead to cold challenges and bringing more will result in heavier boats.

If you have any questions, or if you would like any more information regarding any of the items on the list, please contact Ryan Wagner, the Wilderness Program Director, at 715-385-2312 or [ryan.wagner@manito-wish.org](mailto:ryan.wagner@manito-wish.org).

Footwear			
Equipment	Quantity	Comments	Check List
Neoprene wet shoes	1	Neoprene booties with sole. Look for a boot that will keep you warm, has a little bit of tread and will be comfortable sitting in a kayak all day.	
Neoprene socks	Optional -1	Durable for use on very cold days. Bring if you have a history of poor circulation or frost bite. Not necessary for Georgian Bay.	
Socks	3	Medium wool, merino wool or ragg, or thick polypropylene (no wool/cotton blends). Go with what works for you.	
Camp shoes	1	Cross trainers, tennis or running shoes in good condition for around camp and short day hikes (think light). Open toed sandals will not be acceptable.	

Upper Body Clothing			
Equipment	Quantity	Comments	Check List
Light to mid-weight long underwear top	1	Synthetic or merino wool base layer top. (Examples; Patagonia Capilene/Wool, Icebreaker 220-260, Smart wool, Under Armor, Mountain Hardwear)	
Thin fleece or heavy long underwear	1	Any secondary fleece layer of 100-200 weight. Expedition-weight long underwear works as well. Not necessary if bringing down jacket	
Fleece jacket	1	Should fit over other layers. Can be generic brands. Older fleece tends to lose its loft.	
Rain jacket	1	Durable and heavy duty water proofing is highly recommended. Should fit over all layers including a down jacket. For Mariner, consider a multi-layer waterproof Gore-tex or 3-layer equivalent.	
Lightweight short sleeve top	2	One for in-camp and one for hiking.

Wind pants	1	Your rain pants may double as wind pants. If you choose to bring these, they should fit over all layers.	
Nylon shorts	1	Athletic shorts are fine. They will be used for hiking and around camp.	

<b>Hands and Head</b>

Paddling Gloves or Mitts	1	Look for neoprene gloves or waterproof paddling mitts. NRS has a good supply to look through	

<b>Sleeping Equipment</b>			
<b>Equipment</b>	<b>Quantity</b>	<b>Comments</b>	<b>Check List</b>
Sleeping bag	1	We recommend synthetic bags rated to 15-20 degrees F. The possibility for multiple days of rain make it impossible to keep a down bag dry.	
Sleeping pad	1	1)Should be closed-cell foam and 3/8" thick that will serve as the insulator between you and the ground. (Simple foam pad can be borrowed from Camp) 2)Inflatable pads such as Thermarest, Exped and Big Agnes.	
Sleeping bag compression stuff sack	Optional	For Sea Kayaking we recommend waterproof stuff sacks.	
Dry Bags	2-3	Small stuff sacks that will be easy to pack in hatches are preferred. 20 L is the largest size that we recommend for packability.	

<b>Paddle</b>
